Fast and Glorious: Turkish Automotive Industry

Turkish Automotive

The history of the Turkish automotive industry has a relatively brief past, but a powerful impact: the journey, starting from the mid-1950s and gaining momentum in the early 1960s, has reached a stunning standing point of thousands of companies, hundreds of thousands of recruitment numbers, high quality products and export championship.

Alongside passenger cars and light commercial vehicles, as to which Turkish manufacturers have become world production centers of global companies, Turkish supplier industry boasts ample potential for exports with its large capacity, and a wide variety of production and high standards.
