

## Turkish Seafood and Animal Products

Türkiye, presents a sumptuous feast for the healthy nutrition with her rapidly growing aquacultural, avicultural and apicultural facilities. Surrounded by almost 5,000 miles of coasts, and enriched by hundreds of rivers, lakes and ponds, she is indisputedly one of the leading actors in aquaculture.

With EU-compliant regulations and her rapidly developing facilities and technologies, she is in the global top ten of poultry and egg production. Türkiye boasts three thirds of the world's pollen plants, not to mention a rich flora, transitional ecology and colony population to secure a massive apicultural potential.
